Note: 2010 Base data are reported for all subgroups with 11 or more students but only numerically significant subgroups receive growth targets. Subgroups meeting the following criteria are considered numerically significant: the group (1) contains at least 100 students with valid Standardized Testing and Reporting (STAR) Program test scores included in the API or (2) comprises at least 15 percent of the total valid STAR Program scores and contains at least 50 students with valid STAR Program scores.

"N/A" means a number is not applicable or not available due to missing data.

" \* " means this API is calculated for a small school or a small local educational agency (LEA), defined as having between 11 and 99 valid STAR Program test scores included in the API. APIs based on small numbers of students are less reliable and, therefore, should be carefully interpreted. Similar schools ranks are not calculated for small schools.

- "A"** means the school or subgroup scored at or above the statewide performance target of 800 in 2010.
- "B"** means this is either an LEA or an Alternative Schools Accountability Model (ASAM) school. Rank information are not applicable to LEAs and ASAM schools. Growth and target information are not applicable to LEAs.
- "C"** means this is a special education school. Statewide and similar schools ranks are not applicable to special education schools.
- "I"** means the school has some invalid data, and the California Department of Education cannot calculate a valid similar schools rank for this school.
